

# DIY BOOKMARK

Materials Required:

Watercolor paper (any thick drawing sheet can be used),  
Watercolors, round brushes and water.

1. Wet the paper with water, dip the brush in a dark shade of blue and colour on the top part.

2. Continue with a lighter shade, make it a gradient-darker at the top and lighter towards the bottom.

3. Colour it light yellow to make it look like sunset. For a brighter colour, layer the colours again after dried.

4. Using white colour, paint a moon and spray paint some stars on it.

Done! Use your own DIY starry sky bookmark to mark pages.
